The campsite was the first in Italy, since 2005, to be enrolled in the EMAS Register (Eco-Management and Audit Scheme, registration no. I-000275), in accordance with European Regulation (EC) No. 1221/2009. Compliance with the requirements laid down in the EMAS Regulation is verified annually by an independent third body. We therefore ask to our guests the utmost cooperation and, in particular, we remind you that:

- it is forbidden to spill products or hazardous substances in the environment, in drains and sewers and in toilets
- if there is any accidental spillage of these substances, immediately notify the campsite staff
- it is forbidden to throw any kind of waste outside the containers, litter bins or ashtrays

#### IN THE EVENT OF FIRE

The entire campsite is well-equipped with a water-based fixed fire-prevention system. Firehoses are located on red columns throughout the park. The layout of the numerous fire extinguishers and collection points in the event of fire can be found on the plan located on the notice boards at the campsite, e.g. at Reception.

Rules to remember **in the event of emergency**:

- All vehicles should either be driven to their designated parking spaces as indicated on the maps, or if moving, must immediately park at the side of the road.
- Obey instructions from the staff, given over the loudspeakers.
